

NORDIC VILLAGE HOA NOTICE

WATER MAIN ISSUES

Please be aware that there was a break in the water mains along Queen Esther Drive last week, which also affected Amundsen Court and Nansen Court. This resulted in significant water shortage, with residents experiencing little to no water flow for hours.

Park City Municipal Corporation did send out a crew to make repairs, and water to homes was restored. However, this appears to be a temporary measure, as the crew informed us that the mains are old and rotting.

These water mains clearly need to be replaced. The Water Department has been contacted and we are awaiting further details as to what city plans are to rectify this issue. We will keep you informed of any future issues and/or city updates, and will also thoroughly discuss this matter at our annual HOA meeting to be held virtually in August.

Bill Kulczycki, Board President
